

# PREREQUISITE

## Node Red:

The screenshot shows the IBM Cloud Developer Tools interface for the Node-RED starter kit. The browser address bar displays the URL: `cloud.ibm.com/developer/appservice/create-app?starterKit=59c9d5bd-4d31-3611-897a-b94eea80dc9f&defaultLanguage=undefined`. The page header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and a user profile. The main content area is titled "Node-RED" and features a "Create" button. A sidebar on the left contains links for About, Details, Source code (GitHub), Helpful links (Terms, Tutorial), and a vertical "ASK A QUESTION" button. The main content area includes an "Overview" section with a description of the starter kit, a list of tasks it helps with, and a "What's included?" section. A Cloudant service card is also visible, indicating it is free to start and providing links to view docs and pricing.

#### Overview

This starter kit provides a pre-configured Node-RED application, including a Cloudant service to store the application flow configuration. Add services, generate and download the code, use the IBM Cloud Developer Tools CLI to run and debug locally, then deploy to Cloud Foundry or a DevOps Pipeline.

This starter kit will help you

- Generate an application with Node-RED
- Generate an application with files for deploying to Cloud Foundry or a DevOps Pipeline
- Connect to provisioned services

#### What's included?

Cloudant
